CFK - CARBON

strengthening with Carbon fibres, available as grid, lamella and mesh

Carbon fibre reinforcements are adhesive reinforcements with mortar or epoxy resin. Durox carbon products are available as lamella, grid or mesh. Epoxy resin for CFK laminates is available in various designs. Stable for wall application, with high temperature resistance or retarded curing for higher temperature applications. The carbon fibre choice depends on the adhesive selection. Durox Carbo products are available as carbon lamella, carbon grid and carbon mesh.

CFK - CARBON

PRODUCT NAME Durox Carbogrid 160	TECHNOLOGY Carbon Fibre Grid	APPLICATION Adhesive Reinforcement Cracked Surface Repair Shock And Vibration Absorption Earthquake Protection	BENEFIT Different Weight And Mesh Sizes Available
PRODUCT NAME Durox Carbosheet 162	TECHNOLOGY Carbon Lamella	APPLICATION Adhesive Reinforcement Cracked Surface Repair Shock And Vibration Absorption Earthquake Protection	BENEFIT For Concrete For Masonry For Metal For Wood
PRODUCT NAME Durox Carbomesh 163	TECHNOLOGY Carbon Mesh	APPLICATION Adhesive Reinforcement Cracked Surface Repair Shock And Vibration Absorption Earthquake Protection	BENEFIT Cling To All Shapes High °C Resistance Electrical And Thermal Conductivity Fatigue Resistant High Tensile Strength
