CORROSION PROTECTION BY INJECTION

anti-corrosion treatment as integral part of a waterproofing resin

Corrosion protection with injection resins is special. ARCAN acrylate resin contains a special additive, which actively protects the reinforcement against corrosion. Without destroying and opening up the wall, the injection solves two problems in one working step. Waterproofing and reinforcement protection are possible with the right product.

CORROSION PROTECTION BY INJECTION

PRODUCT NAME	TECHNOLOGY	APPLICATION	BENEFIT
HydroBloc Injekt 583	Acrylate Resin 1 Component Pump	Crack Injection Facade Injection Canal, Shaft Repair Feedthrough Sealing Foam Follow Up Working Joint Sealing Honeycomb Concrete Injection Injection Tube Injection Waterstop Waterproofing Injection	Excellent Penetration Low Temperature Use <0°C Swellable Elastic Corrosion Prevention Cleaning With Water Non Foaming Solid Resin-No Gel Suitable For Humidity
