GEOROCK MORTAR

natural stone for filling and strengthening

GeoRock mortars are quite special – 100% cement free, chalk free, gypsum free and non-alkaline. GeoRock is natural stone! GeoRock mortars and building materials are fast setting, rigid and waterproof. Their excellent adhesion, the abrasion resistance and the shrink free hardening opens up a full range of application possibilities. GeoRock mortars are suitable for surface reprofiling, as casting mortar for machine foundations, as injection mortar and smoothing and repair mortar.
