INJECTION AUXILIARIES

injection tube accessories, thixotropic agents,
surface protection and much more helpful
products

Auxiliaries are products for injection like the joint cover ARCAN Joint Cover 90 for dilatation joint repair, or Komprischaum 130 for defined injection rooms in joints and around pipes. Auxiliaries are special primers for coating difficult surfaces for maximum adhesion. As well as thixotropic agents for thickening up injection resins and coating resins. Surface protection systems against resin pollution. This category is a treasure box, filled with special materials, with the goal to make work as easy and good as possible.

INJECTION AUXILIARIES

PRODUCT NAME	TECHNOLOGY	APPLICATION	BENEFIT
Tröppel container 019	Pressure Less Injection Horizontal Barrier	Horizontal Barrier Till 50% Water Saturation	Easy Handling Pressure Less Injection
PRODUCT NAME	TECHNOLOGY	APPLICATION	BENEFIT
Screed Brackets 075	Concret And Screed Repair	Cracked Screed Repair Concrete Crack Repair	Easy Handling
PRODUCT NAME	TECHNOLOGY	APPLICATION	BENEFIT
ARCAN Fugenabdeckung 90	Metal Sheet	Dilatation Joint Sealing	Injectable Decorative Stainless Steel Movable

PRODUCT NAME Injection tube accessories 414	TECHNOLOGY Fixing Storage Installation	APPLICATION Injection Tube Fixing Injection Tube Customizing Injection End Storage	BENEFIT System Accessories For All Tubes
PRODUCT NAME Verpresszange 427	TECHNOLOGY Injection Tube Injection	APPLICATION Replaces Tube Packers	BENEFIT Reusable Injection Device Secure Grip Replaces Tube Packers
PRODUCT NAME Trennfix 480	TECHNOLOGY Temporary Surface Protection Against Injection Resin Stains	APPLICATION Surface Protection Against Resins Short Term Protection	BENEFIT Easy Handling Washed Off After Injection Is Finished
PRODUCT NAME SuperStop 615	TECHNOLOGY Water Solidification	APPLICATION Extreme Waterstop Instant Waterstop	BENEFIT 1 Component Solidifies Water Instant Reaction Unique 2 Step Reaction
PRODUCT NAME Hydrox AK 1011	TECHNOLOGY Acrylate Gel Additive	APPLICATION Anti-Corrosion Additive For Acrylate Gel	BENEFIT No Corrosion Pump Protection
PRODUCT NAME Silox Thix Agent	TECHNOLOGY Thixotropic Agent	APPLICATION Thickens Resins And Mortars	BENEFIT Easy Dosage Won't Change Material Characteristics
