PMMA RESINS

fast setting resins even in cold weather

The product line Rokryl stands for fast working and resins suitable for < 5°C. If it is too cold for polyurethane or epoxy resins, Rokryl-PMMA resins are the solution. Rokryl resins for injection and grouting.

PMMA RESINS

PRODUCT NAME Rokryl Injekt 327	TECHNOLOGY PMMA Resin 1 Component Pump Casting	APPLICATION Crack Injection Working Joint Sealing Casting Resin Needling Contact Grouting	BENEFIT Low Viscous Fast Setting Low Temperature Use <5°C UV Stable
PRODUCT NAME Rokryl Injekt 328	TECHNOLOGY PMMA Resin 1 Component Pump	APPLICATION Crack Injection Casting Resin Needling Contact Grouting	BENEFIT Medium Viscous Fast Setting Low Temperature Use <5°C UV Stable
