FOAM FOLLOW UP

post-injection or second injection after waterstop
foam for permanent waterproofing

Foaming resins such as waterstop resins are very popular and regularly bring good success in stopping running water. Particularly 1-component waterstop foam is used a lot and often the necessary post-injection is dispensed with.

A second injection with a non-foaming resin is important, as waterstop foam is always only a temporary seal. Water can penetrate through the pores and the leakage occurs again. Therefore, it is recommended to use a solid non-foaming injection resin for the second injection.

There are different types of injection resin available for post-injection. Rigid, flexible and swellable systems. The swellable resins have a special position, as they are able to repair themselves and thus prevent a new leakage.

FOAM FOLLOW UP

PRODUCT NAME	TECHNOLOGY	APPLICATION	BENEFIT
HydroBloc PU 500	PUR Resin	Crack Injection	Swellable
	1 Component Pump	Working Joint Sealing	Elastic
		Honeycomb Concrete Injection	Self-Repair Effect
		Injection Tube Injection	
		Waterstop	
		Flexible Filling, Sealing	
		Foam Follow Up	
		Waterproofing Injection	

PRODUCT NAME

HydroBloc PU 506

TECHNOLOGYPUR Resin
1 Component Pump**APPLICATION**Crack Injection
Working Joint Sealing
Honeycomb Concrete Injection
Injection Tube Injection
Waterstop
Foam Follow Up
Waterproofing Injection**BENEFIT**Elastic
Low Viscous
Excellent Penetration
Excellent Adhesion**PRODUCT NAME**

HydroBloc PU 507 E

TECHNOLOGYPUR Resin
1 Component Pump**APPLICATION**Crack Injection
Working Joint Sealing
Honeycomb Concrete Injection
Injection Tube Injection
Waterstop
Foam Follow Up
Flexible Filling, Sealing**BENEFIT**Elastic
Low Viscous
2 in 1 Resin**PRODUCT NAME**

HydroBloc Integral 575

TECHNOLOGYPUR Resin
1 Component Pump**APPLICATION**Crack Injection
Canal, Shaft Repair
Feedthrough Sealing
Foam Follow Up
Working Joint Sealing
Honeycomb Concrete Injection
Injection Tube Injection
Waterstop
Waterproofing Injection
Flexible Filling, Sealing**BENEFIT**Integral Technology
1 Comp. Resin
Ready To Use
Swellable
Elastic
100% Solid
Self Repair Effect**PRODUCT NAME**

HydroBloc Injekt 583

TECHNOLOGYAcrylate Resin
1 Component Pump**APPLICATION**Crack Injection
Facade Injection
Canal, Shaft Repair
Feedthrough Sealing
Foam Follow Up
Working Joint Sealing
Honeycomb Concrete Injection
Injection Tube Injection
Waterstop
Waterproofing Injection**BENEFIT**Excellent Penetration
Low Temperature Use <0°C
Swellable
Elastic
Corrosion Prevention
Cleaning With Water
Non Foaming
Solid Resin-No Gel
Suitable For HumidityARCAN GmbH
