# SHORT-TERM PROTECTION

peelable lacquer, washable protective coating

Protecting surfaces against soiling during injection work or coating work is easy with our peel-off paints or the washable protective coating. Both systems are very easy to use and protect the surfaces against damage.

## SHORT-TERM PROTECTION

PRODUCT NAME	TECHNOLOGY	APPLICATION	BENEFIT
Trennfix 480	Temporary Surface Protection Against Injection Resin Stains	Surface Protection Against Resins Short Term Protection	Easy Handling Washed Off After Injection Is Finished
