BAUDICHT 914

waterproofing slurry, flexible for new and excisting buildings

Baudicht 914 is the ultimate sealing for all buildings. Reactive, highly elastic and very easy to process – for perfect waterproofing. Baudicht 914 is made of a new polymer and combines the good properties of slurry membranes, bituminous slurries and sprayable membranes. The result is a crack-bridging product with excellent adhesion on nearly everything, even on humid surfaces. High tear resistance, elasticity and flexibility allow the use inside and outside, on floors, walls and foundations.

BAUDICHT 914

BENEFIT	APPLICATION	INSTALLATION	ACCESSORIE	PRODUCT INFO
