BOROX PAINT STRIPPER 1031

removes synthetic resins, façade paint and alkyd lacquer

BOROX Paint Stripper 1031 is a super-efficient remover for synthetic resins such as Methacrylate resins e.g. BlocSil 790, façade paint and alkyd lacquer. Not suitable to dissolve Epoxy resins. The highly efficient pickling agent loosens and solves materials from all solvent proof surfaces as well as wood, metal and mineral-based surfaces. The efficient formula loosens several layers in one step and won't drop or splash.

BOROX PAINT STRIPPER 1031
