CEMBOND RAPID 937 KSM

Fast setting PCC mortar sulphate resistant

Cembond Rapid 937 KSM is a fast setting PCC repair mortar for sewage facilities. Due to excellent sulphate resistance, Cembond Rapid 937 KSM mortar is perfect for reprofiling and final coating in wastewater plants. The excellent adhesion, mechanical and chemical resistance, create a mortar with extreme durability. Even against frost-de-icing salt changes, seawater and agricultural wastewaters.

CEMBOND RAPID 937 KSM

BENEFIT	APPLICATION	INSTALLATION	ACCESSORIE	PRODUCT INFO
