DUROFLEX PRIMER 900-P4

special primer for liquid latex membrane Silox 901-MX used in biogas plants

DuroFlex Primer 900-P4 is used for surface preparation before application of Silox 901-MX. The primer prepares sucking surfaces and prevents damages coming through highly suck able surfaces. DuroFlex 900-P4 is a special primerfor higher strain surroundings such as biogas plants. For other surfaces like old epoxy, old roofing or just normal concrete, are other products available. DuroFlex Primers are available for many surfaces.

DUROFLEX PRIMER 900-P4
