DUROFLEX PU 670

flexible polyurethane coating for floors

DuroFlex PU 670 is a crack bridging high performance floor coating. The self-levelling Polyurethane coating is solvent free, suitable for indoor and outdoor application on non-breathable floors. The coating is liquid proof, abrasion and impact resistant. DuroFlex 670 is not UV stable and requires a top coat for UV protection. The sister product DuroFlex 675 is UV stable and won't change the colour in direct sunlight.

DUROFLEX PU 670

BENEFIT

Flexible
Crack Bridging
Self-Levelling
Liquid Proof

APPLICATION

Coating Non-Permeable
On Asphalt
On Concrete
On Tiles
On Existing Coatings

INSTALLATION

Trowel
Squeegee

ACCESSORIE

DuroFlex Primer 671
DuroFlex-678 Pro
Cleaning Agents For
Surfaces
HydroSolv 520
Cembond EPW 863
DuroFlex TopCoat 677
