DUROFLEX PU 671

elastic polyurethane primer and sealant

DuroFlex PU 671 is a 1-component primer, impregnation sealant and top coat. Layers made of DuroFlex are elastic and resistant with excellent adhesion. This feature makes DuroFlex the perfect bonding bridge for subsequent coatings, especially if the surface is difficult, such as bituminous surfaces. Impregnation seals are silk-mat till shiny and have a clear appearance. These films are a perfect surface protection and abrasion resistant.

DUROFLEX PU 671

BENEFIT	APPLICATION	INSTALLATION	ACCESSORIE	PRODUCT INFO
Flexible	Coating – Non-Permeable	Paint	DuroFlex 670	DOWNLOAD TDS
Shiny Apperance	Impregnation	Roll	DuroFlex 675	REFERENCES
Clear Sealant	Sealant	Rubber Slider	Cleaning Agents For Surfaces	
On Asphalt	Primer, Bonding Agent		HydroSolv 520	
On Bitumen	On Asphalt		Cembond EPW 863	
	On Concrete		DuroFlex topCoat 677	
	On Screed
