DUROFLEX M 900

liquid latex membrane with extra cross-linking

DuroFlex M 900 is a liquid latex membrane for concrete waterproofing. The crack bridging material is to be protected against abrasions and is used below the tiles in bathrooms, basins, damp rooms, balconies and terraces. The flexible and elastic product is suitable for damp surfaces and crack bridging. Due to good alkaline stability, the use on fresh screed and concrete is recommended.

DUROFLEX M 900

BENEFIT

Ready To Use
Crack Bridging
1-Component
Damp Surface
Concrete Protection
Waterproofing

APPLICATION

Coating - Permeable
Waterproof Coating
For Damp Room
For Wet Room
For Terrace
For Balcony
For Catch Basin

INSTALLATION

Trowel
Spray

ACCESSORIE
