DUROGLASS 1025

laminate resin for chemical resistant glass fibre reinforcement

Duroglass 1025 laminate resin for chemical resistant laminates. Duroglass fibre laminate systems protect against mechanical and chemical attacks. The combination of Duroglass Fleece 1026 and the high performance laminate resin Duroglass 1025 creates a maximum protection for concrete floors and elements, tanks, pipes or catch basins against chemical and thermal attacks. Together with TopCoat Duroglass 1028 the coating resists solvents, acids and oxidants and thermal strain. The chemical resistant system consists of Duroglass Laminate resin 1025, Duroglass Fleece 1026, Duroglass TopCoat 1028 and the hardening system Duroglass MEK Super hardener and accelerator 1027-B and 1027-C. Duroglass for a maximum protection of concrete floors and elements, tanks, pipes or catch basins against chemical and thermal attacks.

DUROGLASS 1025
