DUROGLASS 1028

topcoat for chemical resistant glass fibre reinforcement

Duroglass TopCoat 1028 for chemical resistant laminates. Duroglass 1028 is a decorative layer and a protection for laminates in extreme industrial surroundings. Duroglass TopCoat 1028 is the first line of defence against solvents, acids and oxidants and thermal strain. The chemical resistant system consists of Duroglass Laminate resin 1025, Duroglass Fleece 1026, Duroglass TopCoat 1028 and the hardening system Duroglass MEK Super hardener and accelerator 1027-B and 1027-C. Duroglass 1028 creates a maximum protection for concrete floors and elements, tanks, pipes or catch basins against chemical and thermal attacks.
