DUROX CARBOSHEET 162

carbon fibre reinforcement with carbon lamellas

Durox Carbosheet 162 is a carbon lamella for structural reinforcement. Durox Carbosheet is made of high strength carbon fibre bonded with epoxy resin. Typical applications are by the enhancement of seismic resistance, structural strengthening and load capacities. Carbosheet 162 is suitable for concrete, masonry, metallic and wooden structures. The use on flat or shaped surfaces is effortless. High mechanical resistance opens up a wide range of applications. Carbosheet is available in 1,2 and 1,4 mm thickness and width of 50, 100 and 120 mm.

DUROX CARBOSHEET 162

BENEFIT

For Concrete
For Masonry
For Metal
For Wood

APPLICATION

Adhesive Reinforcement
Cracked Surface Repair
Shock And Vibration
Absorption
Earthquake Protection

INSTALLATION

Glued

ACCESSORIE

Cembond EPW 863
