DUROX KLEBER 986

1 component cement based adhesive for adhesive strengthening

Durox Kleber 986 is a mineral 1-component glue for structural enhancements. Durox glue secures the contact between masonry or concrete and Durox Carbomesh 163, Durox Carbogrid 160 and Spiral Anchors 164. The mortar contains fibres, a special polymer and a puzzolanic binding agent. The excellent adhesion and strength extends the application to repair (enable the application for repairing) of cracked and damaged surfaces

DUROX KLEBER 986
