HYDROBLOC 600 INTEGRAL

ready to use elastic injection resin for waterproofing

HydroBloc 600 Integral a flexible resin for waterproofing. Integral is synonym for ready to use injection resins. No mixing, no accelerating! Open the lid and start successful work. HydroBloc 600 Integral is perfect crack injection, joint sealing, honeycomb sealing, injection tube injection and building element waterproofing. Integral 600 is suitable for dry and humid conditions, the resin comes with a hydro active self injection effect. The self injection pushes the resin even further into the structure and pores while curing takes place. HydroBloc 600 Integral is no waterstop.
