HYDROBLOC RAPID 570

injection rubber for waterproofing, dilatation joint repair and waterstop

HydroBloc Rapid 570 injection rubber for waterproofing, waterstop and dilatation joint repair. Rapid reaction, combined with rubber elastic performance, and water swellability, create the ultimate sealant - unmatched since nearly 30 years - HydroBloc Rapid 570. Tear resistant caoutchouc with excellent adhesion. Pore free structure (non-foaming) for durable sealing. Additional water swellability compensates volume changes in cross sections of cracks and joints. This effect is called "auto repair effect". HydroBloc Rapid 570 replaces waterstop foams and the necessary post foam injection with solid resin. Most durable and reliable system, just one material, saving time and money.

HYDROBLOC RAPID 570

BENEFIT	APPLICATION	INSTALLATION	ACCESSORIE	PRODUCT INFO
Swellable	Dilatation Joint Sealing	2 Component Pump	Injection Packer	DOWNLOAD TDS
Injection Rubber	Waterstop		Injection Pump 2	REFERENCES
Tear Tesistance	Waterproofing Injection		Component	
Non Foaming	Sheet Pile Wall Sealing		Drill Hole Mortar	
Rapid Reaction	Slotted Wall Sealing		Injection Mortar	
Pore Free Structure	Slurry Wall Sealing		Equipment Cleaners	
Single Shot System	Tunnel Injection		Komprischaum 130	
	Flexible Filling, Sealing		ARCAN Fugenabdeckung 90
