HYDRONIUM 2030K

remove green coating, algea and moss from surfaces

Hydronium 2030K is a special cleaning agent to remove algae, moss and green coating from water resistant surfaces. Hydronium Moss-Ex 2030 is suitable for natural stone, concrete, plaster, wood and clinker and used to clean roofs. Hydronium 2030K is not a basic cleaning agent, to remove other pollutions use a suitable HydroClean agent.
