JEKTO GUN 051 FUGENPISTOLE

hand gun for mortar application into joints and drilling holes

Jekto Gun 051 Fugenpistole is suitable for manual filling of drilling holes and masonry joints. The handy pump comes with a long nozzle for precise filling for, bottom to top. Suitable mortars are SealFix Expansionsmörtel 930 and Silex Suspension 931. The difference between Jekto Gun 051 Fugenpistole and Jekto Fugenpistole 080 is the length of the nozzle. Jekto Gun 051 Fugenpistole is perfectly made for filling deep holes and drilling holes from the bottom to the top.

JEKTO GUN 051 FUGENPISTOLE
