POWERSEAL 795

topcoat, sealant and protective coating

PowerSeal 795 is an ultra-strong protective coating for floors with high abrasion resistance and clear appearance. It is shiny but also available as matt finish. The 1 component methacrylate system is reactive and connects with the surface, which gives a superb adhesion. PowerSeal 795 creates a protective film against abrasion, de-icing salt and stains as well as high chemical resistance. To be applied on concrete, screed, natural and artificial stones and non-glazed ceramics. PowerSeal 795 is the strongest and hardest of the sister products. BlocSil products made for non-industrial used surfaces.

POWERSEAL 795

BENEFIT

Extreme Tough
Chemical Resistant
Clear
Shiny
No Yellowing
Permeable
1-Component
Solvent Free
Film Formation

APPLICATION

Coating - Permeable
Abrasion Protection
Stain Protection
Protection Against Dust
Creation
Protection Against De-Icing
Salt
Protection For Epoxy
Coatings

INSTALLATION

Paint
Roll
Spray

ACCESSORIE

Cleaning Agents For Surface
Borox Paintstripper 1031
