ROKRYL INJEKT 328

PMMA injection resin, medium viscosity

Rokryl Injekt 328 PMMA resin for contact grouting and casting of wide cracks, joints and voids. The medium viscous resin is designed for wide cracks and overhead applications. Rokryl Injekt 328 combines rapid curing and workability below 0°C with easy processing.

ROKRYL INJEKT 328

BENEFIT	APPLICATION	INSTALLATION	ACCESSORIE	PRODUCT INFO
Medium Viscous	Crack Injection	1 Component Pump	Injection Packer	DOWNLOAD TDS
Fast Setting	Casting Resin		Injection Pump 1	REFERENCES
Low Temperature Use	Needling		Component	
<5°C	Contact Grouting		Jekto Gun 078 Liquid	
UV Stable			Drill Hole Mortar	
			Equipment Cleaners	
			Trennfix	
			Silox Thix Agents
