SILOX 903-DF

liquid latex membrane for roofs and windmill foundations

Silox 903-DF is a high performance liquid latex membrane for concrete waterproofing. The crack bridging material protects concrete on roofs and light exposed surfaces such as windmill foundations. The flexible and elastic product is suitable for damp surfaces and crack bridging. Due to good alkaline stability, the use on fresh screed and concrete is recommended.

SILOX 903-DF

BENEFIT

Crack Bridging
Damp Surface
Concrete Protection
Waterproofing
Weatherproof

APPLICATION

Coating - Permeable
Roof Sealing
Facade waterproofing
Wind Mill Foundation
Sealing

INSTALLATION

Trowel
Spray

ACCESSORIE

Silox Primer 900-P4
Silox Primer 900-P3
Silox Primer 900-P2
Silox Primer 900-P1
Silox EPW 856
Membrane Sealing
Cleaning Agent For Surface
Reprofile & Smoothing
Compound
