SILOX BAUHARZ 805 LC

elastified epoxy resin for building applications and
GFK laminates

Silox Bauharz 805 LC is an elastified casting and building resin. The low viscous material cures fast and compared to standard epoxy resins the impact resistance is much better. Cured films are tough elastic and stick free. Typical applications are bonding bridges, primer, litter layers, polymer mortars, casting of machine foundations and railing posts. The use as drain mortar in gardening and landscaping is possible as well as glueing of natural and artificial stones. Casting of forms or fast curing screeds are typical applications.

SILOX BAUHARZ 805 LC

BENEFIT

Elastified
Impact Resistant
Low Viscous
Fast Curing
Stick Free

APPLICATION

Scratch Coat
Concrete Repair
Joint Mortar
Primer, Bonding Bridge
Polymer Concrete
Repair Mortar
Drain Mortar

INSTALLATION

Manual

ACCESSORIE

Equipement Cleaners
Duroglass Fleece 1026
Silox Thix Agent
Trennfix 480
Screed Bracket 075
