SPEZIAL PRIMER G-868

high performance primer for challenging applications increase Epoxy resin adhesion

Spezial Primer G-868 is a chemical coupler made to increase the adhesion of Epoxy coatings on tiles, stainless steel and mineral surfaces. Used as waterproofing, it avoids the bubble effect on humid surfaces. Compared with standard primers, which just glue on the subsequent coating, Spezial Primer G-868 reacts actively and creates a chemical bonding between surface-primer and coating.

SPEZIAL PRIMER G-868

BENEFIT	APPLICATION	INSTALLATION	ACCESSORIE	PRODUCT INFO
1 Component	Primer, Bonding Agent	Paint	Epoxy Coating	DOWNLOAD TDS
Super Adhesion	Adhesion On Tiles	Roll	Cleaning Agents For Surface	REFERENCES
Fast Curing	Adhesion On Glass	Casting		
Chemical Coupler	Adhesion On Metal			
Active Bonding	Adhesion Between Coatings And Surface			
	Waterproof Bonding Bridge
