

BoRox®Zementhaut Entferner 1032

Remove concrete skin easily from floors and walls

BoRox®Zementhaut Entferner 1032 dissolves the concrete skin that forms when screed and concrete set. Troublesome brushing with steel brooms is no longer necessary.

BoRox®Zementhaut Entferner 1032 is available in 2 versions. As paste for walls (BoRox®Zementhaut Entferner 1032-Wall) as liquid for floors (BoRox®Zementhaut Entferner 1032-floor).

The surface must always be pre-wet with water to such an extent that it no longer absorbs.

Application

Application on the floor:

On flat surfaces, BoRox®Zementhaut Entferner 1032-floor is poured with a watering can (plastic) to create a 0.5 mm thick film and spread it with a soft broom, which also works BoRox® into the pores. After approx. 15 minutes, the cement particles are softened that they can be washed off with a high-pressure water jet. It is important to work the entire surface piece by piece.

Application on walls:

BoRox®Zementhaut Entferner 1032-Wall is used on vertical surfaces, the paste is applied with a trowel or spatula to create a 0.5 mm thick film. After approx. 15 minutes, the cement particles are dissolved so that they can be washed off with a high-pressure water jet. It is important to work the entire surface piece by piece.

	Fast and effective
	For horizontal surfaces - BoRox®Zementhaut Entferner 1032 - Liquid
	For vertical surfaces - BoRox®Zementhaut Entferner 1032 - Paste
