

## HydroClean®525

Special cleaner for cement-containing surfaces

**HydroClean®525 stands for a range of special cleaning agents for paving, concrete, marble and calcareous stone and for heavy oiled concrete floors.**

**HydroClean®525 is an all-round cleaner for cement-containing surfaces.**

**Concentrate - thinning 1:0 - 1:15 with water**

**Additional strengthening effect**

**Gel-like consistency, easy processing**

HydroClean®525 is perfect for cleaning facades and floor surfaces. Concrete and cement-containing surfaces will be hardened additionally.

HydroClean®525 is not suitable for marble, glass or limestone. Do not apply on paint or varnish.

Glass or glazed surfaces are attacked and must be protected from the cleaner, otherwise irreparable stains may occur.

For the cleaning of oil and grease on metal, glass and clinker, we recommend BoRox®Reiniger 1043.

We recommend testing on an inconspicuous area and checking for compatibility with the material to be cleaned. Cover surfaces that cannot be cleaned and protect against dirt. All cleaners must be washed with clear water. Please observe the safety data sheets of the individual products during handling.

These technical information describe the present-day state of knowledge these product. They should only inform about the possibilities of application and could not release the applicator of his commitment to check the possibility to use the product for the required application. Information for processing can be found in processing instructions of our product. Information about safe handling can be found in our current safety data sheet.
