

Jekto®Schneckenpumpe M-6

Injection and delivery pump for preservation of structures

Jekto®Schneckenpumpe M-6 is a universal useable, powerful and handy machine for injection cement, sealing slurry, finishing coat, thick coating, joint compounds, structural colour and similar products.

**Jekto®Schnecken-
pumpe M-6: Handy,
light and high
performance**

Jekto®Schneckenpumpe M-6 is a powerful, robust and handy Maschine for multiple use in preservation of structure and reconstruction of buildings. You can inject cement suspensions and injection mortars, sealing membranes, thick coatings, spattle compounds or finishing coat. You can also cast joints.

The machine can be disassemble into 3 parts without tools, it is light-weight and fits into ever car.

Product data

Motor	1,8 kW 230V 50 HZ
Motor control unit	Continuously variable, by frequency inverter
Gear box	Right-/left-hand motion switchable
Power cable	3 mtr
Weight	25 kg
Rotation speed	60 - 470 U/Min
Pump system	Screw pump
Delivery rate	0,5 - 6 Litres / Min or 1,5 - 14 Litres / Min
Draw	Approx. 30 Meter (depending on material)
Pressure	Max. 20 bar
Reservoir	30 litres or 60 litres
Hose length	5 meters

Attention, the pump is electric, the spray head needs compressed air supply (min 200 l/min). The control unit and regulation of the machine can be controlled by remote controle.

These technical information describe the present-day state of knowledge these product. They should only inform about the possibilities of application and could not release the applicator of his commitment to check the possibility to use the product for the required application. Information for processing can be found in processing instructions of our product. Information about safe handling can be found in our current safety data sheet.
