

Jekto®Schneckenpumpe M-5

Injection pump and delivery device for spraying operations

Jekto®Schneckenpumpe M-5 is a robust and handy machine for processing mineral suspensions with grain sizes up to 2 mm. Supplemented with useful accessories, the pump can also be used for spraying dispersion paints, lime slurries and similar products.

The small and handy device can be plugged into any socket and is ideal for renovating old buildings.

The unit can be equipped with upper containers of 6 or 30 litres volume. The delivery rate can be adjusted between 0,5 - 6 litres/minute by means of the electronically adjustable drive and can thus be easily adapted to the requirements on site.

The motor can be controlled via an alternatively available remote control directly from the processing location.

**Product data
Features**

Motor	1,15 kW 230V 50 HZ
Motor control	Frequency inverter
Power cable	3 meters
Weight	15 kg
Rotation speed	250 - 580 U/Min
Pumpe system	Rotor-Stator system (screw pump)
Delivery/min.	0,5 - 6 litres (depending on pump module and medium)
Conveying distance	20 meters
Pressure	Max. 25 bar
Reservoir	6 or 30 litres
Hose length	5 meters

Attention, the pump is electric, the spray head needs compressed air supply (min 200 l/min). Drive, pump body and reservoir are connected by quick couplings and can be easily disassembled into three parts without tools.

Applications

Grouting with cement paste, micro-cements and injection mortars Spraying of filled wall paints, effect paints and plastic-bound, fine textured plasters. Application of fire protection coatings Application of joint sealants. Casting of building components with reaction resin compounds.

These technical information describe the present-day state of knowledge these product. They should only inform about the possibilities of application and could not release the applicator of his commitment to check the possibility to use the product for the required application. Information for processing can be found in processing instructions of our product. Information about safe handling can be found in our current safety data sheet.
